We install the Pneumatic Water System in country homes.

All inquiries cheerfully answered.

## CONN BROTHERS

Lancaster, Ky.

You will see good pictures at the Opera house.

Mrs. Elizabeth Burgess successor to Mrs. C. C. Becker of Bryantsville will display her new fall millinery Saturday Oct. 7.

The public is cordially invited. 11-1d

### Protracted Meeting.

The protracted meeting at the Baptist Church is drawing large crowds. Rev. Marshall is an interesting talker and the people delight in hearing him. He is being ably assisted by the pastor Rev. O. P. Bush.

### For Sale.

A large two story frame house, with 8 rooms and large hall, on Stanford street, near the public square. This property is in good repair and can be used for a residence, a hotel, a boarding house or a restaurant, and can be bought for a fair price. 9-29 2t R. E. McRoberts.

### A New County Clerk.

Clerk J. W. Hamilton has a new deputy, who within a short time is expected to take complete control of the office, as he has already done at Mr. Hamilton's home. He arrived last Thursday and has been christened James I. Hamilton Jr. Mrs. Hamilton is doing nicely.

### Give Us Credit Please.

When a fellow writes an article, be it ever so short, that is deemed worth clipping by other papers, he is entitled to credit for it. We note here of a late great many articles taken from the Record for which no credit is being given. This is unjust brothers, if it is worth having, it is worth crediting.

### Seeing High Bridge.

High Bridge is proving the Mecca of sight seers from this place. On last Sunday a large automobile load went over as well as several smaller conveyances. The distance is only about 24 miles over a good road and the trip is a very enjoyable, there being much beautiful scenery along the Dix river cliffs arise from seeing the new bridge.

### Clever Gentleman Injured.

Mr. John E. Anderson of Point Leavell while hauling a load of salt from the Hyattsville depot on last Thursday met with a very painful accident. He was holding his brake down by means of a stick, when the stick broke, precipitating him a somersault to the ground. He thinks that he must have struck the broken stick as he fell. Three of his ribs were fractured and he was severely bruised.

Follow the crowd to the picture show.

### A Good Man In View.

The people of Stanford have placed in the field a set of gentlemen for City Council, who will make the race in the cause of Law and Order, non political and upon that platform alone. This body of men have designated, in case of their election, Mr. W. P. Kincaid for Chief of Police. We sincerely hope they may be elected and we feel sure that Mr. Kincaid will fulfill the trust which they propose to place in him.

### Hope She Wins.

In the "popularity contest" being conducted in Jessamine county by our esteemed contemporary the Gatling Gun, the hopes and desires of the Record force have been centered on Miss Juliet Welch, and the entire force has begged, borrowed and stole every coupon in reach for her, and the many expressions of gratitude received from her, from time to time caused them to be even more zealous in her cause.

### To Our Advertisers.

Our advertisers have fallen into the habit here of late of bringing in their ads or changes on Wednesday, and sometimes Thursday. We must insist that all advertisements intended for publication during the current week must be brought in not later than TUESDAY. The work of getting out a weekly newspaper is a weeks work, and we cannot adjust our business so as to allow the setting up of advertisements later than Tuesday.

### What About This?

We are told that some parties down at the mouth of Dix river have constructed a big fall trap, and have taken out over one thousand pounds of fish, and that others are left in the place to die. We are told that such dastardly work as this is a gross violation of the law, and why the good people do not rise up and suppress such lawlessness we are unable to understand. Why can't the next grand jury investigate this report.

### Kind Words For Judge Walker.

If Judge Walker could only hear the nice things said of him by his legions of friends in Boyle county, we know it would be of great help to him in his struggle against disease. Everybody, regardless of political affiliation, has a kind word and well-wish for him. His splendid work on the bench has won for him a warm spot in the hearts of our people, and many are the regrets that he has held his last term as Judge of the Boyle court. —Messenger.

### Good Colored Citizen Dies.

Madison Lusk, one of Lancaster's most worthy citizens died Thursday at his home in this city after a long illness of heart trouble. "Mat" was well known and respected in the community by both black and white. He was about 50 years of age and had long been a fixture about the Marksbury granary, and was the best versed man in the county in the handling of grain and hemp. His remains were laid to rest in the Lancaster colored cemetery Friday afternoon.

### Fatal Accident.

On Friday afternoon Matthew Crank a sixteen year old boy who resides on the new Danville pike about four miles from town, was playing with an old pistol when the weapon was discharged the ball entering his stomach, puncturing the intestines several times and passing through the lower lobe of one of his lungs. Medical aid was quickly summoned, but it was seen that he could not survive. He died a few hours after the accident. His remains were buried in the Lancaster cemetery Sunday morning.

### Desirable Home Sold.

Mrs. Alice Walker on last Saturday sold to Mr. John P. and Mrs. Fannie Long her home on Richmond street for \$5100. This sale was effected by the real estate firm of Hughes & Swinebroad. This is one of the most desirable homes in Lancaster. Mrs. Walker having but recently greatly improved the property.

We are sorry that as soon as she can succeed in winding up her affairs in Lancaster, Mrs. Walker will make her home in Nicholasville. Lancaster will bid a hearty welcome to Mr. and Mrs. Long.

### Young Cosby's Remains Taken To Junction City.

The remains of young Edward Cosby, who was so seriously burned by gasoline last Thursday as to cause his death was taken to his home in Junction City on Friday for burial. Young Cosby since he has lived in Lancaster has made many friends who were deeply grieved at his untimely end. Reports indicate that he was a model young man, polite, gentlemanly, a lover of home and its environments, and devoted to his parents.

That there was no serious damage done by the fire which caused young Cosby's death is phenomenal. Mr. W. D. Mahan was within ten feet of the fire when it caught with his automobile but by heroic efforts succeeded in getting it out of danger, and the large tank and horses were rushed from the scene but just in time.

### Speaking In Stanford.

Hon. Oscar W. Underwood, democratic leader in the National house and prominent as an orator and politician will speak at the court house in Stanford on Saturday evening of this week at 7.30 o'clock. The people of Garrard county are invited to be present.

Next Sunday will be Education Day at McKendree Church, Hubble. President J. C. Acheson of Caldwell College, Danville will deliver the discourse. Invitation being made for fellowship interest in services of Lancaster Baptist Church, there will be no service at the Methodist church next Sunday night.

### Another Killing In Stanford.

John Harris Rout, alias "Possum" shot and killed Clay Drye in Stanford Monday afternoon. Both are colored. The killing is said to have been a peculiarly atrocious one wholly without provocation. The deed was committed with a single barrel shot gun. Rout who is a one armed negro, firing one load and then deliberately reloaded and emptied another load into the body of his victim.

### Openings Bring Crowds.

The several millinery openings held on last Saturday afternoon attracted more of the fair sex to town than has been seen here in many months. The display offered for their inspection was the most elaborate ever seen here, and with all this array of head gear, which seemed us could not be excelled even in Paris, we are unable to see why it will be necessary for the ladies of the town and country to leave home for their fall hats.

### Judge Walker May Go With L.&N.

It is rumored that Judge L. L. Walker will be made assistant general counsel of the Louisville and Nashville Railway. Company when his time as Judge in this judicial district expires. Prior to his appointment to the place he was local counsel at Lancaster for the company. As circuit judge in this district he has demonstrated his ability in the legal profession and has established himself as one of the very best judges in the state. He has made many friends by his fair and impartial decisions, regardless of party affiliations. —Danville Advocate.

The above article has been going the rounds of the Central Kentucky press. As Judge Walker is still confined to the hospital and knows nothing in regard to the matter, and as we are not advised on the subject, we can neither deny nor affirm the report. However, we will say that Judge Walker stands high with the legal department of the L.&N. and should they see proper to place him in the above mentioned position, they would have made a wise choice.

### Condition Of The Sick.

Judge Walker is gradually improving, his condition for one or two days this week was not quite so good as could have been wished, but he has regained the lost ground and is now progressing nicely. Typhoid fever is a disease that must of a necessity run its course, and while the Judge will be confined for some time yet, his ultimate recovery is now thought to be assured.

Miss Flossie Mae Sutton is at the Lancaster Hospital with typhoid fever. The disease has not as yet fully developed, but she is doing as well as could be expected.

Mr. Ed White is also at the Hospital with a severe attack of stomach trouble it is not thought however to be serious, and it is thought that he will soon be out again.

Little Guy Watkins and the Kelley child, both of whom have typhoid fever are getting along nicely and are thought to be well on the road to recovery.

Mrs. Dr. Amon is up and able to be about the house, and it will be a source of gratification to her many friends to know that she will soon be out again.

### A Good Citizen Passed Away.

Mr. Thomas S. Elkin died at 1 o'clock Saturday afternoon at his home on the New Danville pike one mile from town of pneumonia. Mr. Elkin was in town on Monday, and only took to his bed on Tuesday, so short was his illness that many of his most intimate friends were unaware of it.

Mr. Elkin was sixty four years of age and was born and raised in Garrard county, and spent the greater portion of his life in Lancaster, having been engaged in business here for over thirty years. He was known to nearly every farmer in the blue grass region of Kentucky, and was universally liked. He was a whole souled jolly, clever gentleman and had a host of friends both at home and through the state.

He is survived by his wife and two sons, Messrs. Sherry and Robert Elkin of this place, one sister Mrs. O. P. Huffman of Nicholasville, and three brothers, Michael Elkin of Lexington, John Lee Elkin of Nicholasville and Gabriel Elkin of this place.

Mr. Elkin had long been a member of the Christian church, and on Sunday afternoon, after funeral services by his pastor, Rev. F. M. Tinder, at the grave, his remains were placed at rest in the Lancaster cemetery.

The heartfelt sympathy of the entire community goes out to the bereaved family in the loss of the devoted husband, kind father and brother.

Rear Admiral Winfield Scott Schley dropped dead in New York Monday of heart disease, just having left the New York Yacht Club, where he had been to call for his mail. Admiral Schley was seventy two years of age and was retired on a pension. Admiral Schley was born in Frederick county Md., in 1839, he graduated at Annapolis in 1860 he served with distinction in the U. S. Navy during the civil war, and has since served his government in many important capacities, and at many important posts. He commanded the Greely relief expedition in 1884. His last and most daring feat before his retirement was the destruction of the Spanish fleet at Santiago during the Spanish-American war, this occurred on the 29th day of May 1898, and the credit of the action was claimed by Admiral W. T. Sampson, who was Schley's superior officer and left him in charge of the fleet and a short time thereafter the engagement occurred which resulted in the destruction of the Spanish fleet. However after a rigid investigation, Schley was accorded the full credit due him.

History repeats itself in Pennsylvania. A catastrophe, similar to and a close second in point of destruction of human life, to the great Johnstown flood of 1889 in which 2000 lives were lost, took place near Austin Pa. last Saturday.

A great dam owned by the Bayless, Pulp & Paper Co. one and one half miles above Austin, a town of 3200 people, broke, precipitating 4,500,000 gallons of water upon the town and surrounding country, near 1500 people are known to have to have perished by drowning, burning and being crushed to death, while hundreds of others are unaccounted for. Fire followed the bursting of the natural gas mains, and famine stares the survivors in the face.

War has been declared and hostilities opened between Turkey and Italy, the bone of contention being the desire upon Italy's part to establish a protectorate over Tripoli.

As is always the case in the receiving of foreign war news, reports are hard to authenticate and are often denied, but the indications are that the war will be of short duration, as the Powers are more than likely to intervene and stop hostilities at any time.

Francisco I. Madero was on last Saturday chosen by the people of Mexico for their president without opposition. Madero was at the head of the recent uprising in Mexico which resulted in the resignation of President Diaz and his flight from Mexico. The race for vice president was hotly contested and lies between Senor Dela Barra and Jose Pino Suarez, the latter being Madero's chosen running mate. The election passed off quietly.

In order to force the recognition of their newly organized Federation of Labor, it is estimated that from 20,000 to 30,000 workmen, shopmen, machinists, blacksmiths, carmen and tinners on the Harriman lines of railroad, dropped their tools on last Saturday and went on strike. The strike extends from the Mississippi to the Coast and fifteen states are effected.

#### Fiscal Court Meets.

The regular October term of the Garrard Fiscal Court met on Tuesday for the purpose of hearing and allowing county claims. They adjourned to meet again on Tuesday October 10th.

#### Births.

Mr. and Mrs. J. R. Henry Jr. are the parents of a winsome little girl. Mrs. Henry was Miss Scotta Sebastian.

Mr. and Mrs. Jesse Sebastian are also rejoicing over the arrival of a ten pound boy.

#### City Council.

The City Council met Monday night in its regular monthly session. The matter of the selling of the telephone franchise heretofore published in the Record, came up for final reading and went to a vote, which results in the franchise being defeated by a vote of 3 to 2.

The arguing on the subject of the franchise consumed so much time that it excluded any other than the routine business.

#### Richard Burton Buys Farm.

Mr. Richard Burton on Monday purchased the B. F. Patton farm near Bryantsville for \$39,000. This is one of the best located and most desirable farms in Garrard county, and was recently bought by Mr. Patton at a sale which he had, and two sons buying out the interest of the other heirs. Mr. Burton gets possession on January 1, 1912. We have not learned Mr. Patton's intentions but we would be sorry to lose so good a citizen, and hope that he will buy another farm and remains in the county.

#### Cassady Studio To Re-open.

It will be a great pleasure to the people of Lancaster and Garrard county to know that we are to again have a first class photograph gallery in Lancaster. On Saturday October 14th. The Cassady Studio people of Danville will re-open their studio formerly occupied by them in the rooms adjoining Mr. Theo. Currey's grocery. The studio will be in charge of "Jack" Cassady, who in addition to being a clever gentleman, is a past master of the art of photography, knows it in every detail from the kodak work up to the handsomest photographs. The studio will be open every Saturday and those who desire good pictures made and framing done at a reasonable price will do well to give them a call.

#### Killing Below Bryantsville.

At White Oak, a negro settlement below Bryantsville on the road leading to Buena Vista, last Saturday night about 9 o'clock, Harrison Preston, a white man about twenty five years of age was shot in the stomach with a pistol, and died in the Lancaster hospital about noon Monday as result of the wound.

The negroes were having a pie supper or festival, and much liquor was in evidence and a good many of them were drinking, young Preston claims he was standing on the side of the road when several negroes came up to him and with out any words or notice of his intention, he alleges that Allen Jones one of the number shot him. Preston also charged before his death that Ed White another negro drew a knife on him, and he also stated that Henry Cooley colored witnessed the trouble, and that he, Cooley, remarked to Jones, "You shot that man and shot him for nothing." The officers who went to the scene found Cooley in a beastly state of intoxication and brought him to town and he is in jail, being held as a witness. Ed White is also in jail charged with being an accessory to the crime. Allen Jones came to town Saturday night after the trouble and caught the Sunday morning excursion for Cincinnati. Officers are on his track and if caught he will be brought back here for trial for the crime with which he stands charged.

The dead man bore a good reputation and worked for Mr. Charles Coulter in the vicinity. His remains were buried at the Mount Olivet cemetery. Tuesday afternoon.

#### Attendance At Normal School Increased.

An increase over last years enrollment of 25 per cent is shown at the Eastern Kentucky Normal School at Richmond Ky. The school this year has followed a judicious method of advertising.

#### Shooting Near Mt. Hebron.

On Monday morning at the home of Mrs. Rains in the Mt. Hebron neighborhood James McWilliams received a pistol wound in the back which passed through his body, inflicting what is thought to be a fatal wound. Mrs. Rains, at whose house the trouble occurred, says that McWilliams and Loton Ray came to her house earlier in the day and both were drinking, that the whiskey was brought there with them, that they were scuffling in and out of the house several times, and that finally she heard a pistol shot and went in and found McWilliams shot, and that Ray was in the room and remained there for some time, finally leaving and he has not since been seen. McWilliams in a statement says that he did not see Ray shoot him. Dr. Burnett, Dr. Rose and Dr. Elliott went to the scene and did everything possible for the wounded man, but they entertained very little hope for his recovery. Sheriff Ballard and County Attorney Robinson also went to the scene, but Ray, had left before their arrival. A warrant was sworn out for Ray charging him with the shooting. The injured man is about 45 years of age, is married and has two children. He is a horse trader and is well acquainted throughout the county. Loton Ray is about 25 years of age and is a son of the late Allen Ray. He has been away from the county for several years, but recently returning.

#### Uniting In His Efforts.

The following letter written by John M. Farra, President of the Garrard county Development Association, to Mr. Desha Breckinridge, who is one of the Directors of the Traction Co. and which was published in last Saturday's Lexington Herald, we publish in order to show that the efforts to get the proposed road through Garrard county are by no means being allowed to lag, upon the other hand, every effort is being made and every argument is being used to convince the Traction people that we have the "only way." Suffice to say that Mr. Farra submitted to Mr. Breckinridge a complete data of schedule, with distances and all other necessary information that would tend to convince him of the truth of his assertions.

Lancaster, Ky., Sept. 21, 1911.  
Mr. Desha Breckinridge, Lexington, Ky.

Dear Sir: In your editorial in yesterday's Herald regarding the question of crossing Kentucky river by the Kentucky Traction and Terminal Company, and suggesting the purchase from the Q & C of their old bridge at High Bridge Ky., has caused a good deal of comment from the people in this section, who are most anxious to see the Traction Company extend its lines from Nicholasville via Camp Nelson to Lancaster, Danville and Harrodsburg.

From what we know of the physical conditions to be overcome in securing a suitable crossing of the Kentucky river we are convinced that the easiest and best crossing and grade for a traction line can be had at Camp Nelson, and a line built over this route would cost less per mile for construction, exclusive of the bridge, than any route penetrating the territory South of the Kentucky river, which is as you suggest a fertile field for traction development.

I am enclosing you a government map of the route from Nicholasville to Lancaster, Danville, Stanford, Crab Orchard and Harrodsburg, together with some data regarding distances which I trust you will carefully look into and urge that you, as a director of this Traction Company, present this matter to the company, and if possible, to secure a survey of the route here outlined.

We would be glad as a representative of the people in this county in this matter, to take you and any other directors you may secure on an inspection trip by automobile over this route at any time you find it convenient to do so, believing, as we do, that the many advantages offered will be more apparent after a careful survey of the territory between Nicholasville and this point.

Yours very truly,  
JOHN M. FARRA.

##### Big Stock Sale.

In this issue of the Record will be found the advertisement of W. H. Shanks of a big stock sale to be held on Thursday October 19th at his farm near Stanford. A lot of good horses, mules, cattle and sheep will be disposed of and people in search of stock will do well to attend.

##### Drowned While Playing

A two year old child of Mrs. Luther Ray was drowned last week near Mt. Hebron by falling into a pond near which it was playing. It is supposed that the little tot leaned over to get something from the water when it lost its balance, fell in and was drowned.

##### In Interest Of Orphans Home

Rev. J. W. Graham of Louisville made an address Sunday at the Christian Church in the interest of the Christian Orphans Home, an institution which is maintained by that denomination. Rev. Graham is a representative of the home and travels in its interest. This is one of the most laudable of the many good works done by the church and Rev. Graham met with the encouragement which his cause so richly deserves.

##### Higginbotham Bros. Bring Suit.

Messrs W. W. and J. E. Higginbotham have instituted suit in the Fayette Circuit Court against the City of Lexington for polluting the water of a branch or creek which runs through their farm by allowing city sewage to flow into the creek, thereby rendering the water unfit for use and otherwise injuring their premises. The suit is for \$15,000 damages and for an abatement of the alleged nuisance. The plaintiffs are sons of Mr. Geo. T. Higginbotham, and formerly resided in this county.

##### Pythians Elect Officers.

The two days' session of the Kentucky Grand Lodge, Knights of Pythias, came to a close at Lexington Wednesday at noon with the selection of the following officers for the ensuing year:

H. A. Schobret, Versailles, Grand Chancellor; George C. Carter, Covington, Grand Vice Chancellor; H. L. McLean, Wilmore, Grand Prelate; B. W. Carter, Lexington, Grand Keeper of Records and Seals; B. P. Eubanks, Bowling Green, Grand Master of Exchequer; R. A. Young, Ewing, Grand Inner Guard; L. P. Davis, Hopkinsville, Grand Outer Guard.

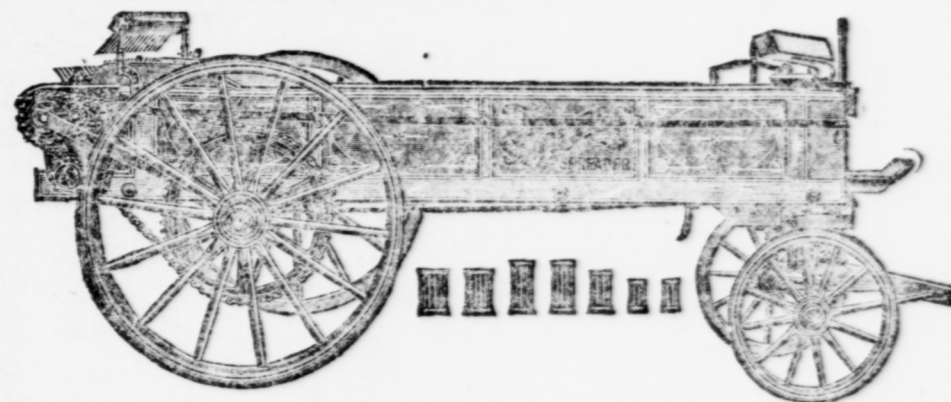

##### The Fair.

The fair meeting scheduled for last Saturday afternoon drew a good attendance, but only two out of the twenty seven gentlemen appointed to secure stock reported. They had secured subscribers for 106 shares, and if the other gentlemen will do anything like as well, the affair will surely be a success.

A meeting will be called for Saturday October 14th at the court house at 2 o'clock, at which it is hoped that every one of the solicitors will be present, as well as all those who have taken stock and all other citizens who are interested. At this meeting some final action will be taken as to whether or not a Fair Association will be organized along the lines heretofore explained in the Record.

This scheme to organize a fair for ALL the people of the county is not calculated to "grind any man's axe", and if it is wanted, come forward and help us by subscribing for stock, and by your presence and suggestions at the meeting. On the other hand if you wish by your apathy to indicate that you are not in favor of a fair of this kind, do not want it, why, well alright, we have honestly endeavored to secure for the county a fair in which a general county interest would be manifested, and if you choose otherwise, we can assure you that Garrard county will not be without a fair next year, tho' probably not along the lines we would prefer.

Now let us make one last appeal to you, come in and help us. Let us get up a fair that will be the envy of our surrounding counties, and one that will be to the credit of the county, and to the advantage of all her people. Once more, won't you come and help us.

### LAME EVERY MORNING.

A Bad Back Is Always Worse In The Morning Lancaster People Are Finding Relief.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills relieve sick kidneys—make you feel better, work better, rest better and sleep better.

The following statement proves the merit of Doan's.

L. W. Cox, 302 Bowyer St., Lexington, Ky., says: "My occupation required much heavy lifting and I believe that this was the cause of my trouble. I first noticed a dull pain in my back which became so acute that I could not rest. When I arose in the morning, I was lame and stiff and felt so tired that I could hardly commence the day's duties. My kidney's were also disordered and the kidney secretions caused me annoyance by their frequency in passage. I doctored and tried any number of remedies but could find no relief. When suffering severely I had Doan's Kidney Pills brought to my attention and deciding to take them, I procured a supply. I soon improved and after I had taken the contents of a few boxes I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sold agents for the United States.

Remember the name—Doan's—and take no other.

### Zemo Makes Astonishing Eczema Cures.

"WE PROVE IT." No. 1. Every day ZEMO gives relief and cures men, women and children in every city and town in America whose skins are on fire with torturing ECZEMA rashes and other itching, burning, scaly, and crusty skin and scalp humors.

ZEMO and ZEMO (ANTISEPTIC) SOAP, two refined preparations will give you such quick relief that you will feel like a new person.

We give you three reasons why we recommend and endorse ZEMO and ZEMO SOAP for all skin and scalp eruptions.

1st. They are clean, scientific preparations that give universal satisfaction and are pleasant and agreeable to use at all times.

2nd. They are not experiments, but are proven cures for every form of skin or scalp affections whether on infants or grown persons.

3rd. They work on a new principle. They do not glaze over the surface, but they penetrate to the seat of the trouble and draw the germ life from underneath the skin and destroy it. In this way a complete cure is effected in any case of SKIN OR SCALP ERUPTION.

Endorsed and sold in Lancaster by the McRoberts & Son Drug Store.

### Simplicity Marks Mikado.

In raiment, as in food, the mikado's taste is simple to the verge of severity. At public functions he appears in his uniform of commander-in-chief of the army. In the privacy of private life he wears a frock coat. No imported goods are used in the making of his garments. It is his wish that he should be clothed with the products of the industry of his own people.

### Is The World Growing Better.

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see, 50c at R. E. McRoberts & Son. 1-m

Deserving and Getting. Only the brave deserve the fair, but the rich are more likely to get the fair to say yes.

### Averts Awful Tragedy.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by R. E. McRoberts & Son. 1-m

### Air Needed in Human Lungs.

In one minute, in a state of rest, the average man takes into his lungs about eight liters, or 48.8 cubic inches, of air. In walking, he needs 16 liters, or 97.6 cubic inches; in climbing, 23 liters, or 140.3 cubic inches; in riding at a trot, 33 liters, or 201.3 cubic inches; and in long-distance running, 57 liters, or 347.7 cubic inches.

### It's Equal Don't Exist.

No one has ever made a salve, ointment or balm to compare with Bucklen's Arnica Salve. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Eczema, Salt Rheum. For Sore Eyes, Cold Sores, Chapped Hands or Sprains its supreme. Unrivaled for Piles. Try it. Only 25c at R. E. McRoberts & Son. 1-m

### Superstition Inane.

Destiny has no pet dates—just as many fortunes have been made on Friday as on Monday and just as many men have died on the tenth as on the thirteenth of the month. The hoot of the owl is only fatal to sleep. To pass under a ladder is merely un-intelligent—the inside is the more dangerous side. Your great-great-grandfather burned witches—you burn electric lights. Wake up! You're not in the dark ages.—Woman's World.

### Gives Aid To Strikers.

Sometimes liver, kidneys and bowels seem to go on a strike and refuse to work right. Then you need those pleasant little strike-breakers—Dr. King's Life Pills—to give them natural aid and gently compel proper action. Excellent health soon follows. Try them. 25c at R. E. McRoberts & Son. 1-m

## NOTES FROM MEADOWBROOK FARM

A successful machine for spraying onions has been used by E. N. Foote, a well-known eastern onion grower. He used a common 40 potato sprayer, changing the discharge so that it would spray 10 rows of onions. With its use he finds that he can spray 20 acres a day without difficulty, and he is going over his 25-acre onion field once a week in order to destroy the so-called blight, which has proved a great drawback to the onion specialty for several years past.

Many a farmer believes in thorough tillage, good speed, wellbred live stock and plenty of good feed and care for them, and up-to-date farming methods generally, yet at the same time considers the poultry business a trifling occupation, fit only for the women folks, something to look after when there is nothing else to do.

Mares do not usually give trouble by abortion if given good food and reasonable care. Of course, when pregnant, a mare should not be overdriven, nor be compelled to smell blood or offal, and should not back or hold back heavy loads. Her stall should not have much incline. Nourishing food, pure water and fresh air are essentials. If one suspect ergot or smut in hay or feed it should be discarded.

It is estimated that barn-yard manures have a value of about two-thirds that of commercial fertilizers, therefore the careful saving of farm manures and their judicious application to the soil are vital factors in farming operations, and as essential to continued success as plowing the land or planting the crop.

The price of dairy products in the winter is so much higher than in summer that only a small extra effort as to care and judicious feeding may result in a considerable increase in the profits from the entire herd at this season.

The intelligent flock-masters are fast coming to recognize the fact that the man who makes the most of his opportunities in handling a farm flock must become a breeder and feeder of high-class mutton, more especially sheep.

The farmer who is breeding a flock of improved mutton sheep and feeding them in an intelligent and painstaking manner, may plan his feeding operations so that he may have a good ready city market every week in the year.

Farm-yard manures benefit the soil by acting as a mulch and make humus, but their benefit to the growing crops depends entirely upon the amount of nitrogen, phosphoric acid and potash they contain.

It is true that the generality of farm manures are low in quality, but that is no valid excuse for farmers to persist in breeding horses that nobody wants, not even themselves.

Sheep raising numbers among its requirements quietness and contentment in a degree perhaps not so essential to success in the handling of other breeds of live stock.

In the production of strawberries the best specimens are obtained only by careful culture. The plants should be of a large fruited and firm fruited variety of the best flavor.

Begin to take the chill off the water you give the horses when the weather gets cold. You can heat it cheaper on the stove than you can in the stomach of the horse.

A thick coat of paint daubed over the severed limbs when pruning in the orchard or wood lot prevents cracking of the wood and gives the trees a better appearance.

The ordinary diversified farm with its abundant use of horsepower furnishes ideal conditions for growing, developing and training draft horses.

It will pay anyone that keeps from 25 to 100 hens to build a shed close to the henhouse in which to deposit the droppings during the winter.

It is best to separate pullets from the rest of the flock, let them have free range and feed largely of whole or cracked corn, wheat or oats.

It is impossible to create capacity. You may breed for it but you can't create it and it's a very important function in the dairy cow.

There is the most money in the long run in dairying by selling the cream or butter only and keeping the other products on the farm.

The Duroc Jersey sows are very docile; they are easily handled during the breeding and farrowing season and are very prolific breeders.

Under no circumstances should anything be added to milk to prevent its souring. Such doings violate the law of both God and man.

The problem of keeping the boys and girls on the farmstead is solving itself, for farm life is becoming more and more attractive.

## INTHERAJAH'S SERVICE

By EDWIN D. TROUSDALE  
Copyright by American Press Association, 1911.

This story was told me by an Englishman who had grown old in the civil service in India. We were sitting in the smoking room of a liner between Southampton and New York:

The people of India are the most sensitive as well as the most merciless people of the world. An Indian will treat one he wishes to destroy with the most dastardly attention while he is planning to kill him. He always strikes in the dark—that is, when he kills with steel. But it is with poison that Indians do their most artistic murderous work. They have studied the science of poison for ages. They have poison rings, poison perfumes, poison flowers. But the strangest of all is a poison human being. They will feed a person on a certain poison till he has absorbed so much of it that his very breath is noxious to one unused to what the poison person is saturated with.

I had a narrow escape from death when I was in India. It was when I first went out there as a youngster and had no idea of the secret dangers to be incurred. That which an Indian is most jealous of is a woman. Any European who attempts the slightest familiarity with one of them is in imminent danger of his life. If they would give a fellow a chance it wouldn't be quite so terrible, but they won't. He is either murdered in the dark or poisoned.

I was just twenty years old when I landed in Calcutta to take position in a British house dealing in opium and the goods of the country. Later I was sent into the interior to buy curios, two of us being sent together for greater safety. Bob Britton, not much older than myself, was my companion.

In one of the towns we heard of a rajah whose brother or some other relative had died childless, and the rajah had inherited his effects. Not caring to keep duplicates, he had offered to sell many articles. Bob and I called on him, and he exhibited his wares, treating us at the same time royally. While we were bargaining he feasted us in the room occupied by the women, which was a great honor. Unfortunately for Bob and me we drank too much wine.

Being permitted to room where we pleased, we devoted ourselves each to a pretty Indian girl. Presently I missed Bob. He and the girl he was with had strolled away into a sort of inclosed summer garden. I invited my companion to go off in the same way, but she gave me a look that was all the warning I needed. I contented myself with remaining with the others.

Bob and the girl he was with remained away from the rest of us for some time. When he returned he appeared to be quite proud of himself, though the girl's face wore a frightened look. As soon as we were alone he told me that he had taken the sweetest kiss he had ever tasted. I asked him if he was sure he was unobserved, and he said he saw no one about, but while his lips touched the girl's she had uttered a suppressed scream. It was immediately after this that the two returned.

When we rejoined the rajah he expressed a hope that we had enjoyed ourselves. He was very effusive in his offers of hospitality and friendship. He asked us how we were pleased with the ladies, and when we expressed ourselves delighted he said that we had not seen the most beautiful. He clapped his hands, a servant appeared, he gave an order in a tongue we did not understand, the servant withdrew, and in a few minutes our host led us into another room where were assembled several of the handsomest Indian women I have ever seen. The rajah introduced us, then left us, saying that he would take a nap.

One of the women, apparently with the consent of the others, took Bob under her especial care, another took me, and it wasn't long before, under pretense of showing us some of the rajah's most valuable curios, they led us into a suit of rooms filled with enough rare articles to stock a museum. Bob and I soon got into separate rooms. My companion and I seated ourselves on a divan and were chatting about the curios when I noticed that she had been using some strange perfume. She gradually drew nearer to me, and I noticed a deathly sickness coming over me. An instinct of self preservation, I suppose, led me to get up from the divan. My next idea was to find Bob. I staggered into another room. There was Bob with his lips glued to those of the girl he was with. Seeing me, she unwound her arms from about him, and he fell to the floor. I went to him, bent over him and knew that he was dead.

There was a door near by opening into a garden. I managed to get to it and passed out. The fresh air revived me, and, regaining the strength of my legs, I ran like a deer anywhere to get away from the horrible death I had barely escaped.

I returned to Calcutta and told my story. Nothing could be done in the matter; it is not the policy of the British government to punish Indians who take revenge on Europeans for such offenses. Britton's sudden death received no official notice whatever. I was considered to have made a lucky escape.

There has never been any doubt in my mind that the two girls who affected Bob and me had been fed on a poison and were in the rajah's service as secret executioners.

Mrs. E. C. Gaines and Miss Sophronia Fox will go as delegates to the State U. D. C. Convention to be held in Lexington October 18 and 19th.

Mrs. Mattie P. Frisbie President of the Mary Walker Price Chapter will lead the delegation. Mrs. F. P. Frisbie and a number of other Lancaster daughters will also attend the Convention and the unveiling of the John Morgan Monument.

The following invitations are being received this week by friends of the contracting parties.

Mr. and Mrs. William Barbour Mason request the honour of your presence at the marriage of their daughter Edna Barbour to

Mr. William Fox Logan on the evening of Wednesday October the eighteenth at eight o'clock Presbyterian Church Lancaster, Kentucky

At Home after November the first 232 Pierce Street Kingston, Pennsylvania.

Attend the Institute in the day time and the picture show at night.

### The Teachers' Institute.

The tri-county Institute is in session at the Graded School building this week and if anyone who is skeptical as to the attention being given the cause of education in this section of Kentucky could go there and have a glance at the 150 intelligent faces gathered at the meeting, their doubts would be quickly dispelled.

The Institute was organized on Monday and Miss Knapp West was chosen as Secretary, which position she is filling in a very able and acceptable manner. This position is one that carries with it a great deal of labor, aside from the actual duties devolving upon her, she is required to answer an endless number of inquiries coming from all sources. Superintendent Higgins is as busy as possibly could be, looking after the comfort and entertainment of the visitors.

Prof. T. C. Noe of Lexington, one of the faculty of the State College is the Instructor, and he is proving himself to be one of the best ever heard at an Institute in this section. He is both instructive and entertaining and the teachers as a unit are high in their praise of him, both as an instructor and a gentleman. He is ably assisted by Mrs. Cora Wilson Stewart, Superintendent of schools in Rowan county, who is noted throughout the state both as an educator and a teacher.

There are present about 150 teachers being equally divided between three counties. Superintendent John W. Rawlings, well known in Lancaster, both as a lawyer and school superintendent, heads the Boyle delegation, while Miss Ora L. Adams, a young lady of rare intellectual ability and refinement the Superintendent of Schools for Mercer County is at the head of the delegation from that county. Prof. S. H. Nickell, who is well known here, having been formerly a member of the faculty at the local school, now principal of the Graded School at Harrodsburg is here together with his faculty composed of eight teachers.

Prof. Nickell is accompanied by his wife, both of whom are very popular here, and are the recipients of much attention from their many friends.

Prof. Howard Breeding, together with his faculty of three teachers of the Junction City Graded School, Prof. O. B. Jones and faculty of five of the Bryansville Graded School and Prof. Clarence Adams and his assistant who will open the initial session of a Graded School at Salvisa in Mercer county, in a new building on November 1st, are the teachers of Graded Schools from adjoining counties who are in attendance.

The Garrard county teachers tendered a reception to their guests at the school building Tuesday afternoon, which was richly enjoyed by all. Prof. Noe lectured at the court house Wednesday night, his subject was well chosen, was interesting and instructive alike to the teachers and to the citizens of the community, who attended in great numbers. On Thursday evening Prof. G. D. Smith teacher of Science at the East Ky., Normal, Richmond, gave his lecture, "The Old Eagle Tree" at the court house, and the lecture was pronounced one of the best and most instructive ever heard here, the lecture was profusely illustrated.

Prof. T. E. Cleland, principal of the Parksville schools, is here and has proven quite an acquisition to the exercises, his talks proving timely, interesting and instructive. Prof. Cleland is well acquainted here, having taught school at Buena Vista, away back in the, well we will not give away the Professor's age but he knows all of our old citizens.

Mrs. Stewart lives up to her reputation of being a splendid educator and instructor as well as lecturer, and when she rises to her feet everyone knows they are going to hear something interesting.

For once the travelling men had to take second choice at the "Kengarian," the teachers crowding that hostelry to its capacity and Host Zimmer was was compelled to store his "drummers" in cellar, attic and parlor.

Without doubt it is the most orderly

crowd of people ever gathered in Lancaster. Chief Herron did not have to strengthen his force, and can go to rest at night with the assurance that all is well, even if there is a crowd in town.

The citizens and teachers of the town and county are doing their utmost to make the stay of the visitors in the community a pleasant one.

Prof. Huffleet, Field Agent of the Sue Bennett Memorial School, London Ky., is attending the Institute in the interest of his school.

Mrs. H. B. Pearce, connected with the Independent Orphans Home of Louisville is here with a view of bringing that institution to the attention of the teachers. The Orphans Home is no stranger to Lancaster people, and its work is a laudable one, and it is to be hoped that Mrs. Pearce will meet with the recognition she deserves.

Prof. Riley, our Supt. is mingling with the crowd of teachers and helping to show them that we have the best Graded School in the State. This is his first year here and he has never before attended this tri-county institute, however, he is as popular among the teachers as he is among the patrons and trustees of the school. The other Lancaster Graded school teachers are attending and making themselves useful in many different ways.

Prof. Milton Elliott was here Wednesday in the interest of Ginn & Co.

The exercises are proving interesting to the entire community, and the people are showing their appreciation by their attendance. The Institute meets next year in Harrodsburg.

The visitors are loud in their praise of Superintendent Higgins and Secretary West, they are leaving nothing undone that will add to the comfort and pleasure of the guests. Both handle their respective duties as if they had made a life study of them.

We are sorry that lack of space prevents us from giving a more detailed account of the various days proceedings at the institute, together with a list of the names of those in attendance.

Mrs. Chas. P. Weaver of Louisville addressed the Institute on Thursday afternoon. Mrs. Weaver came under the auspices of the local Women's Club Her talk was very interesting.

Entire change of pictures every night at the Opera house.

FOR SALE—An ideal home in Stanford, house contains six rooms and bath, garden, fruit trees, barn, hen house, and coal house. As I desire to go West will sell at a bargain if sold at once. Call on or write A. E. Patterson, Stanford, Ky.

Game Season Closed.

The hunting season for all sorts of game, including rabbits and squirrels, closed September 15. The quail season begins on November 15. A few years ago legislature passed a law prohibiting hunting of any kind during the two months immediately preceding the open season for quail. This was done because many people would go out hunting under the pretext of killing rabbits, squirrels, etc., and would also kill quails before the law was out. In order to stop this the law was passed and it is now regarded as prima facie evidence of guilt to even be caught in the field with dog and gun during these two months.

NOTES.

Prof. T. E. Cleland, principal of the Parksville schools, is here and has proven quite an acquisition to the exercises, his talks proving timely, interesting and instructive. Prof. Cleland is well acquainted here, having taught school at Buena Vista, away back in the, well we will not give away the Professor's age but he knows all of our old citizens.

My one export cattle owned by Lunsford Y. n'ell, were shipped to New York this morning. They were unusually fine ones, weighing about 1,420 pounds, and are said to have brought 64 cents per pound.—Danville Advocate

Mr. O. H. DeBaun, of Cornishville, has bought a two year old stallion colt from Phil Sims for \$400. This is said to be one of the highest priced colts sold in this county for a long while. Mr. DeBaun also bought a four-year old jack for \$450.

Bonta Brothers sold J. P. Huddleston, of Tennessee, thirty yearling sugar mules at an average of \$170. William Bonta has bought for this firm thirty mule colts at an average of \$98, the highest price for any one being \$125 paid to J. Z. Burrus.—Harrodsburg Herald.

In the Lexington Circuit Court Mrs. R. T. Lowndes, of Danville, has sued the L. & N. road for ten thousand dollars for the loss of the noted saddle mare, Princess Sonia. She was shipped to the Illinois State Fair to be shown and it is alleged, was neglected, contracted an illness from which she died.

W. B. Burton shipped on Wednesday to the Wilson Live Stock Co. Wilson N. C. a carload of stock consisting of 13 harness horses which he bought at an average cost of \$175, and 12 mules which cost on an average \$203, per head. This is the second load Mr. Burton has shipped to this firm recently, and from this time on he expects to make them shipments at regular intervals.

W. B. Burton reports the following purchases of horses and mules this week one combined four year old gelding of Mr. Broadus of Richmond for \$200., one 5 year old harness horse of W. W. Bales of Richmond for \$225., two harness geldings of J. H. Dr. A. J. Payne, State Live Stock Inspector, has notified all county live stock inspectors that they must certify

to movements of sheep going into other states intended for purposes other than immediate slaughter. All sheep not intended for such purposes to be shipped into other states must be billed through Louisville or Covington and there dipped under the supervision of a Federal inspector who will certify to the interstate movement of such sheep. A violation of these rules by county inspectors is punishable by a fine of from \$100 to \$500 and the rule must be strictly enforced by all county live stock inspectors.

### LAME EVERY MORNING.

**A Bad Back Is Always Worse In The Morning Lancaster People Are Finding Relief.**

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills relieve sick kidneys—make you feel better, work better, rest better and sleep better.

The following statement proves the merit of Doan's

L. W. Cox, 302 Bowyer St., Lexington, Ky., says: "My occupation required much heavy lifting and I believe that this was the cause of my trouble. I first noticed a dull pain in my back which became so acute that I could not rest. When I arose in the morning, I was lame and stiff and felt so tired that I could hardly commence the day's duties. My kidney's were also disordered and the kidney secretions caused me annoyance by their frequency in passage. I doctored and tried any number of remedies but could find no relief. When suffering severely I had Doan's Kidney Pills brought to my attention and deciding to take them, I procured a supply. I soon improved and after I had taken the contents of a few boxes I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sold agents for the United States.

Remember the name—Doan's—and take no other.

### Pretty Likely.

When a woman enters a prize contest she is likely to feel pretty sure that the winner had a pull with the judges.

### Bargain Sale in Moving Pictures.

A suburban draper has hit on a novel idea, says the London Chronicle. The scenes at his great bargain sale are to be reproduced at a local picture theater. "Go and see it—see if you can recognize yourself in the crowd." To all his patrons the enterprising shopkeeper issues tickets which admit to the show at reduced prices. Will it answer? Of course. For he appeals to two human instincts—the desire for a bargain and the desire to see oneself, as it were, in a looking glass—cheap. Why else does anyone turn and glance at the reflections in a free looking glass? The shopkeeper appeals to the common meanness and vanity of his fellow mortals.

### Similarity.

Algernon—It strikes me that foot ball is a great deal like Wagner. Ethel—Like Wagner? Algernon—Yes; you've got to pretend to like it whether you do or not!

### A Flat Family.

"There goes Plathurst with two bundles under his arms. Playing Santa Claus, I'll bet."

"Yes; he probably has a new jardiniere for the rubber plant and a collar for Fidokins, his wife's poodle."

### Reasonably So.

"Is he what you would call a steady man?" "Tolerably steady, for a person in his line of work."

"What does he do?" "He walks a wire in vaudeville."

### Being Merely Human.

"Mamma, hasn't papa made enough money to retire from business?" "Yes, dear; that's why he doesn't retire."

### Drawing Distinctions.

"Is it hard to stem a current?" "That depends on whether you're trying to check a torrent or dock a small fruit."

### The KITCHEN CABINET

Fancy Cookery.

So many people have the idea that fancy cooking is a highly complex process, when it is often only a new arrangement of materials or food served in a different form. If one has a good idea of the first principles of cookery it is comparatively easy to elaborate many so-called fancy dishes. Through the ingenuity of the cook, so many combinations of food may be made by changing the flavor and form of foods, that they may appear in such dress that one may have a new dish for every day in the year.

The simple white sauce for example, which is made by using two tablespoonfuls of butter melted in a hot saucepan, stirring in two tablespoonfuls of flour. When well mixed add a cupful of milk and cook for five minutes.

This same white sauce may become a fancy dish when served with fish baked or broiled, or in croquettes, by adding sometimes chopped hard cooked eggs. Again, chopped sour pickle or olives plain or stuffed, are added.

The white sauce may be changed in consistency by adding less or more flour. For croquettes we need a thicker sauce, using the same amount of milk and one-third of a cupful of flour.

A dessert that may have a very high-sounding name on the menu card, will be found to be a combination of very simple things.

### Dandelion, Creole Style.

Wash the leaves carefully and let them stand in salt water for five hours. A ham shank is boiled for two hours, then the dandelions are added and cooked until tender. Drain, chop fine, season with butter, pepper and salt, and serve with the chopped meat from the ham shank. Garnish with hard cooked eggs.

Spinach must be washed in large quantities of water to remove the sand, which settles in the creases of the leaves.

### Nellie Maxwell.

Hobo's Troubles.  
"This is a peculiar world," sighed Harry the Hobo. "I've always noticed that the poorer cook a woman is the more likelier she is to have some cold vittles for me when I ask her for them!"—Toledo Blade.

### "I Told You So."

"What pleasure do you derive from being a pessimist?" "A great deal," replied Mr. Growcher. "When the worst happens I at least have the satisfaction of posing as a prophet."
